kitforteams.com

Meet your new work bestie.

Make data driven decisions with Kit. It's the only software platform with built in assessments and progress monitoring tools that give you the information you need.

Do you...

...have a systematic way of determining strengths and needs?

...struggle with identifying treatment/instructional objectives?

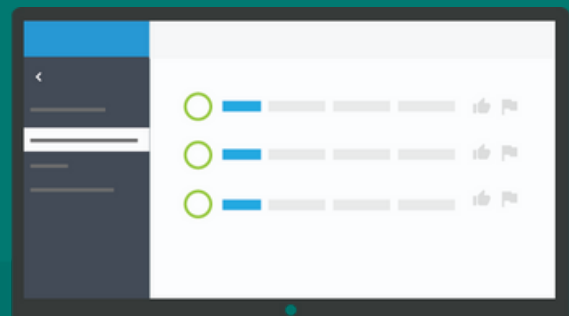

...use inconsistent data collection methods for determining baseline scores and progress on IEP goals?

...spend time over your hard earned breaks completing progress reports?

...feel anxious when questioned about why you chose your IEP targets?

...seek ways to be more confident, whether you are brand new to the field or a veteran educator/therapist?

 **kit.**
is the solution.

Make your job easier.

Remove Guesswork

Use data driven decisions to write comprehensive treatment plans for your preschool through high school caseload.

Painless Progress Monitoring

Complete progress reports for one group before the next group of students even comes into the room!

Avoid Megagoals

Use SMART goal drop downs to ensure you are writing goals that can be measured and understood by non-familiar readers.

Individualize Supports

Select from a comprehensive bank of strategies to identify accommodations, select interventions for MTSS, or share with parents.

Reduce Scheduling Anxiety

Let the software do the scheduling for you and edit easily when needed - you keep control.

Communicate

Easily collaborate with your entire IEP team when developing lesson plans, collecting data, and building a student's IEP.

Best of all, it's paperless!

**Access everything you
need from any device.**
